Studying abroad in the United States is for a mobile global education and intercultural awareness building opportunities. Studying abroad is determined in the United States by political rationales of national security and foreign policy. The number of students studying abroad represents only about 1% of all students enrolled at institutions of higher education in the United States.

The current research explores the relationship between living abroad and self-concept clarity. We conducted six studies (N = 1,874) using different populations (online panels and MBA students), mixed methods (correlational and experimental), and complementary measures of self-concept clarity (self-report and self-other congruence through 360-degree ratings).

Student migration is the movement of students who study outside their country of birth or citizenship for a period of 12 months or more. During the period of globalization, the internationalisation of higher education increased dramatically and it has become a market driven activity. With the rapid rise of international education more and more students are seeking higher education in foreign ...

Take to the Skies. Every day, millions of people board flights bound for destinations across the United States and around the globe. Unfortunately, navigating sprawling airports and negotiating cramped planes makes traveling by air an uncomfortable experience for most passengers, and it can prove to be downright daunting for those with mobility challenges and other disabilities.
