Bed bugs are a type of insect that feed on human blood, usually at night. Their bites can result in a number of health effects including skin rashes, psychological effects and allergic symptoms. Bed bug bites may lead to skin changes ranging from invisible to prominent blisters. Symptoms may take between minutes to days to appear. Itchiness is common, while some may feel tired or have a fever.

A New Beginning to us means "Dreams do come true". Owning a bed & breakfast has been a dream of ours for many years and when the opportunity presented itself we had to say yes and pursue our dream. Staying in various bed & breakfasts over the years along the eastern seaboard has allowed us to experience the art of inn keeping and gave us the dream that we could do this, too.
